## How to use the Baby Moves app (Android)

Baby Moves allows parents to record and upload a video of their baby's natural body movements to be checked by a health professional using the General Movements assessment (www.general-movements-trust.info). The General Movements assessment looks at specific movement patterns that occur when your baby is awake and lying on their back without any other handling.

## Lets get started...

1 Go to your Google Play Store		
Q Search 'babymoves'		
<ul> <li>2 Download the app</li> <li>3 Open app and go to settings (pink icon, bottom right)</li> <li>3 Select your child's study (as listed below) from the drop down</li> </ul>		CHA - KITE CP CHA - KITE CP CHA - KITE CP CHA - KITE CP CHA - KITE CP QCH - KITE CP QCH - KITE CP RBWH - KITE CP LIVERPOOL - KITE CP JHH - KITE CP SCH - KITE CP RHW - KITE CP
